**MUSLIM SCHOLARS
 EMBRACE A TRINITY**

Muzammil Siddiqui has confessed publicly that he does not uphold the Quran alone. In flagrant violation of powerful Quranic commandments, he openly admitted that he upholds a trinity: "three basic sources of Islam: the Quran, the authentic Sunnah, the Ijma'." Obviously, the "Muslim scholars" have to find sources besides the Quran to support their lies.

Just like the Christians who worship Jesus against his will, Dr. Siddiqui, representing the Muslim scholars, refuses to believe the Quran that came out of the Prophet Muhammad's mouth. The purpose of Dr. Siddiqui's article in the latest issue of his "Orange Crescent" (Sept-October, 89) is glaringly obvious throughout his article: to reject and twist the Quran's clear and obvious truth, in order to enforce the corrupted ideas of his masters.

Here Is the Quranic Truth

The Quran commands us to uphold one source. Upholding other sources besides the Quran is, by definition *Shirk*.

Say, "Who is the greatest witness?" Say, "God; He is the witness that this Quran is revealed to me, to preach it to you and to future generations." (6:19)

When you read the Quran, we place between you and those who do not believe in the Hereafter an invisible barrier. And we place shields upon their minds to prevent them from understanding it, and deafness in their ears. And when you preach your Lord using the Quran ALONE, they run away in aversion. (17:45-46)

You shall preach with the Quran (not the Quran, Sunnah, and Ijma') to those who reverence My commandments. (50:45)

The messenger will say, "My Lord, my people have deserted this Quran" (not Quran, Sunnah, & Ijma'). (25:30)

What the Quran says about Ijma'

If you obey the majority, they will lead you to Hell. (6:115)

The majority will not believe. (12:103)

The majority of those who believe will fall into idol worship. (12:106)

The Ijma' that Dr. Siddiqui upholds is very clearly condemned by God.

Who Is Your God?

If you choose the scholars' opinions instead of God's, the scholars are your gods.

"They set up their religious leaders and scholars as gods instead of God. (9:31)

Advice to Muzammil

Repent. Read the Quranic verses you quoted in your own article. Who is really manipulating the Quran; you or me?

The Muslims you mislead will spend eternity cursing you, and beating you up.

Miracle Of Miracles

This earth-shattering phenomenon will surely bring the world to its knees—kneeling before Almighty God (Quran 26:4). After this, anyone who denies the Quran's mathematical miracle, will have a guaranteed reservation in the lowest pit of Hell (Quran 26:5-6).

[1] Sura 1 is God's gift to us, to establish contact with Him (Salat). Write the sura number and the number of verses next to each other and you get 17, the total number of units in the 5 daily prayers.

[2] Let us write down the sura number, followed by the number of every verse in the sura. This is what we get:

1 1 2 3 4 5 6 7 This number is a multiple of 19.

[3] Now, let us replace each verse number by the number of letters in that verse. This is what we get:

1 19 17 12 11 19 18 43 also a multiple of 19.

Theoretically, one can alter the letters of Sura 1, and still keep the same number of letters. However, the following mathematical phenomena rule out that possibility. For the gematrical value of every single letter is taken into consideration. Here it is:

[4] Let us include the gematrical value of every verse, and write it down following the number of letters in each verse:

1 19 786 17 581 12 618 11 241 19 836 18 1072 43 6009 also a multiple of 19.

[5] Now, let us add the number of each verse, to be followed by the number of letters in that verse, then the gematrical value of that verse. This is what we get:

1 1 19 786 2 17 581 3 12 618 4 11 241 5 19 836 6 18 1072 7 43 6009 a multiple of 19

[6] Instead of the gematrical values of every verse, let us write down the gematrical values of every individual letter in Sura 1. This truly awesome miracle, shows that the resulting long number, consisting of 274 digits, is also a multiple of 19. ALLAHU AKBAR.

1 7 1 19 2 60 40 1 30 30 5 1 30 200 8 40 50 1 30 200 8 10 40 2 17 ... 50

This number starts with the sura number, followed by the number of verses in the sura, followed by the verse number, followed by the number of letters in this verse, followed by the gematrical values of every letter in this verse, followed by the number of the next verse, followed by the number of letters in this verse, followed by the gematrical values of every letter in this verse, and so on to the end of the sura. Thus, the last component is 50, the value of "N" (last letter).

[7] Since I cannot write very long numbers here, let us substitute [*] for the long number consisting of the number of every verse, followed by the number of letters in the verse, followed by the gematrical value of every individual letter in the verse. If we write down the number of the sura, followed by its number of verses, we get 17, the number of units (Rak'aas) in the 5 daily prayers. Next to the 17, write down the number of the first prayer (1), followed by its number of Rak'aas, which is 2, then two [*]'s, followed by the number of the second prayer (2), followed by the number of Rak'aas in this second prayer (4), followed by four [*]'s, and so on. Not only is the resulting long number a multiple of 19, but also the number of its component digits is 4636 (19x244).

17 12 [*] [*] 24 [*] [*] [*] [*] 34 [*] [*] [*] [*] 43 [*] [*] [*] 54 [*] [*] [*] [*]

Properties of Sura 1, The Key

Verse No	No. of Letters	Gematrical Value
1	19	786
2	17	581
3	12	618
4	11	241
5	19	836
6	18	1072
7	43	6009

MOHAMEDANS CHALLENGE GOD

They say: "If the Quran is complete and fully detailed, as claimed by God in 6:114, where can we find the number of Rak'aas in the Quran?!!"

God has now revealed the final answer to this most stupid challenge. Here it is.

1712[*][*]24[*][*][*][*]34[*][*][*][*]43[*][*][*][*]54[*][*][*][*]

[*] = a long number that includes the number of each verse, the number of letters in each verse, and the values of every letter. This long number, which encompasses the five prayers and their Rak'aas, is a multiple of 19. Its number of digits (4636) is also a multiple of 19. Additionally, if we write down the number of Rak'aas for each prayer, followed by the same number of [*]'s, the resulting long number is also a multiple of 19 (remember what each [*] represents, as explained above):

2 [*][*] 4 [*][*][*][*] 4 [*][*][*][*] 3 [*][*][*][*] 4 [*][*][*][*]

Now we can appreciate the awesome power divinely vested in Sura 1, "The Key;" it opens the door of redemption.

The revelation of this great miracle was accomplished, exclusively as always, through true believers; they are Edip Yuksel, Saeed Talari, Mahmoud Ali Abib, and Abdullah Arik.

This great miracle is easily verifiable, since we are dealing with a short sura consisting of seven verses. Obviously, God is strengthening the miracle supporting His Messenger of the Covenant, to see how far the disbelievers will go in rejecting such a powerful, simple, and utterly overwhelming miracle.

Why Al-Faatehah Must be Recited in Arabic

Adam received from his Lord words, whereby God redeemed him; He is the Redeemer, Most Merciful. (2:37)

Adam had to utter specific "words" given to him by God, in order to be redeemed. Similarly, God has given us specific words—the words of *Al-Faatehah*—in order to establish daily contact with Him (Salat), and redeem ourselves. As proven by the awesome mathematical miracle presented here, every single letter in Sura 1, *Al-Faatehah*, is divinely designed.

As most of you know, the number "19" is the common denominator throughout

the Quran's mathematical code (see QURAN: THE FINAL TESTAMENT, 1989, Appendix One).

786

This number is very famous in many Muslim lands. It is the gematrical value of the first verse of the Quran, *Bismillah*. Instead of writing the name of God on paper (letters, articles, etc.) then throwing such papers into the garbage, they write down 786. Obviously, God has willed that the Muslims remain thoroughly familiar with the gematrical system, by inspiring the Muslims to use 786 in place of *Basmalah*.

GREAT TRAGEDY IN MECCA

One can easily see that this mighty miracle proves the special value of "The Key," and its role in establishing contact with our Creator. Satan does not want us to establish such a contact. This is why the devil set out to destroy "The Key."

Satan's work is manifest in every mosque, including the Sacred Mosque of Mecca. When you pray behind today's corrupted imams you never hear the first and most important verse of the Quran: In the Name of God, Most Gracious, Most Merciful. According to their corrupted jurisprudence—listen to this—"Bismillah is 'Makrooh.'" The word "Makrooh" means "Hated!" Can you believe it? Here is the reference from the classic book:

"Jurisprudence According to the Four Sects," (Dar Al-Fikr, Beirut), '69, Pg 257.

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ ، وَهِيَ سُنَّةٌ ، وَالْمَالِكِيَّةُ يَقُولُونَ : أَنَّهَا مَكْرُوهَةٌ ،

Additionally, at the end of "The Key," Satan dictates on his people the loud proclamation of a non-Arabic, non-Quranic word—you will hear the praying masses shout in unison: "AAAMEEN." By cancelling the 19 letters of *Bismillah* and adding "AAAMEEEN," Satan ensures that those people establish contact with him, not with God.

They Lost "The Key"

The gematrical value of *Basmalah* is 786, and the value of "Ameen" is 102. By removing *Basmalah* and adding "Ameen," the Mohamedans' net result is 102-786 = -684, and 684 is the gematrical value of "Al-Quran Al-Kareem." This informs us that since the Mohamedans lost "The Key," they have no access to the Quran. This explains the famous strange phenomenon that the Arabs keep saying that the Quran is "difficult to understand," even though God repeats in the Quran that He made the Quran easy.

By removing *Basmalah*, and adding Ameen, the Mohamedans lost "The Key" and, consequently, they have no access to the Quran.

David Dixon's Discovery

While studying medicine in Toledo, Ohio, David found time to reflect upon the suras whose numbers, plus their number of verses add up to a multiple of 19. He noted that there are 12 such suras. They are suras 6, 15, 21, 39, 41, 42, 50, 55, 56, 70, 88, and 107. See Table.

This fact in itself was discovered earlier by Sister Ihsan Ramadan. The new thing

tiplication factors of these 12 suras also add up to a multiple of 19.

The sum of all the sura numbers and numbers of verses in all 12 suras is 1444, and this sum equals 19x19x4.

Allahu Akbar.

1. Sura No.	2. No. of Verses	Sum (1+2)	Factor
6	165	171 = 19 x	9
15	99	114 = 19 x	6
21	112	133 = 19 x	7
39	75	114 = 19 x	6
41	54	95 = 19 x	5
42	53	95 = 19 x	5
50	45	95 = 19 x	5
55	78	133 = 19 x	7
56	96	152 = 19 x	8
70	44	114 = 19 x	6
88	26	114 = 19 x	6
107	7	114 = 19 x	6
Sum of the multiplication factors =			19x4 76

VICTORY: WHEN?

The last revelation in the Quran was Sura 110, entitled "Victory" (*Al-Nasr*). This sura consists of 19 words; the first verse "God's victory will surely come" consists of 19 Arabic letters. Since we are the generation of believers blessed with God's 19-based miracle, this sura is talking about us; VICTORY BELONGS TO US.

God's truthful promise guarantees victory, dignity, and support for the believers. God's support for His devotees who are blessed with the Quran's 19-based miracle is very special. For, this time, multitudes of people shall be blessed with God's guidance and grace. Millions of people are destined to embrace God's religion, the only religion acceptable to God, Submission.

Submission is God's unified and consolidated religion. According to God's perfect plan, the prophets delivered all the scriptures, then He sent a unifying and consolidating messenger—His Messenger of the Covenant.

The Corruption of Religions

Even during Moses' lifetime, and despite the witnessing of numerous profound miracles—including the parting of the Red Sea—Moses' followers worshiped the calf. At the end of Moses' mission, that David discovered was that the mul-

only two people believed with Moses and Aaron, out of about a hundred-thousand (5:23-25).

Jesus' Dozen

Despite God's profound miracles manifested through Jesus Christ, only a dozen disciples believed with him by the time he departed. A few years after his departure, Christianity became corrupted beyond recognition.

Muhammad's Struggle

Muhammad declared to his close relatives and friends that he was God's messenger, and urged them to keep this fact a guarded secret. After three years, the secret became known, and with that a tremendous and vicious persecution poured upon the Prophet and his followers. The Prophet endured severe persecution for ten years, culminating in an attempt to kill him. That is when he fled his hometown to Medina. The persecution and war continued, even in Medina.

A few years after Muhammad's death, the Muslims began to idolize him, to the point of distorting the Quran; they added two false verses at the end of the last Medinan sura (Sura 9) in honor of their idol. Thus, Islam became corrupted within two decades after the Prophet's death.

Victory Belongs to Us

The great victory reported in the 19-worded Sura 110 belongs to us. What is happening now, and since the first year of the 15th Islamic Century (1400 AH) is:

- [1] Distinguishing God's very special servants: These are the believers who saw the truth and upheld in the face of vicious and severe persecution and insults.
- [2] Confirming the wickedness of God's enemies who oppose His great miracle.
- [3] Giving me a chance to complete the required work, before millions join us.

God Almighty has given me 1000 proofs—Quranic, physical, mathematical, and utterly irrefutable—that I am God's purifying and consolidating Messenger of the Covenant (Quran 3:81). Since February 1989, I have challenged the "Muslim Scholars" to produce one, just one, proof that I could not possibly be God's messenger. I am still waiting. ❀
